## **SPANISH PAVILION AT 4YFN 2018**

---

The Spanish Pavilion at 4YFN 2018 is supported by the Ministry of Energy, Tourism and Digital Agenda, through the State Secretariat for Information Society and Digital Agenda, as well as by Red.es and ICEX Spain Trade and Investment.

At the Spanish Pavilion at 4YFN 2018 you will find 32 innovative mobile tech companies from all over Spain that are examples of a domestic technology industry that is dynamic, modern and focused on innovation and internationalization.

## SECRETARY OF STATE FOR INFORMATION SOCIETY AND DIGITAL AGENDA

The Secretariat of State for Information Society and Digital Agenda (SESIAD) of the Ministry of Energy, Tourism and the Digital Agenda, is the public body in charge of the design and implementation of public policies on the development of telecommunications and the information society in Spain. Regarding the MWC, SESIAD coordinates the Spanish Government participation at the Barcelona Mobile World Capital Foundation, as a founding member along with the Generalitat of Catalonia, the City Council of Barcelona and GSMA.

## ICEX - SPAIN TRADE AND INVESTMENT

ICEX Spain Trade and Investment is a public business organization which works worldwide with the objective of promoting the internationalization of Spanish companies in order to improve their competitiveness as well as boosting foreign investment in Spain. ICEX offers its services through 31 Provincial and Territorial Trade Offices in Spain, 98 Economic and Commercial Offices Worldwide and 19 Business Centres abroad. Every year, ICEX organizes around 1.200 promotional activities in foreign markets and answers over 90.000 queries on internationalization.

## RED.ES

Red.es is the public corporate entity attached to SESIAD which executes the plans and public policies of the Digital Agenda for Spain. Its main areas include the empowerment of innovation and entrepreneurship; the stimulation of the digital economy (with particular emphasis on SMEs digitalization); the digital public services (specially in healthcare and education) and the development of smart cities.

## INCIBE – SPANISH NATIONAL CYBERSECURITY INSTITUTE

The Spanish National Cybersecurity Institute (INCIBE), a dependant institution of the Ministry of Energy, Tourism and the Digital Agenda (MINETAD) through the Secretariat of State for Information Society and Digital Agenda (SESIAD), is the entity of reference for the development of cybersecurity and the digital trust of citizens, the Spanish academic and research network (RedIRIS) and companies, particularly for strategic sectors.

As a centre of excellence, INCIBE is an instrument of the Government for the development of cybersecurity as an engine of social transformation and an opportunity for innovation. With its activities based on research, the provision of services and the coordination with agents with competencies in the area, INCIBE leads cybersecurity activities at a national and international level.

## SPANISH PAVILION AT 4YFN 2018 AGENDA

---

### Monday, February 26th

---

15.00 h – 16.00h **Panel: Spain, new member of the unicorn lands**

*Principe Conference Room.*

Spain is, since this year, a new member of the unicorn lands. Cabify is the new spanish unicorn and as a success story we will have the privilege to discuss the details of the value creation with two active investors: Rakuten Capital and Seaya Ventures. Furthermore we will discuss how Spain is attracting foreign investments and great startups.

### Tuesday, February 27th

---

11.00 h – 12.00 h. **Workshop: Demystifying Silicon Valley**

*Workshop 02*

Come and learn firsthand from an insider about Silicon Valley. Be in the know of the current state of affairs, what to expect in the near future and how it may affect you. Speaker: Christian Prada, Managing Director at Spain Tech Center San Francisco (STC).

15.00 h – 16.00 h. **Demoday by Spanish Pavilion: startups and investors with Ñ**

The most promising Spanish technology startups will pitch to win the “Most promising startup with Ñ” award.

*Airbus Stage*

### Wednesday, February 28th

---

13.00 h – 14.30 h. **Live! Spanish digital talent and networking drinks at the Spanish Pavilion**

Come and meet Spain brightest new talent and creative leaders in entrepreneurship and technology while enjoying some drinks. You are invited to join us!

*Spanish Pavilion - Lounge Zone.*

### Cybersecurity Challenges

Come and put your knowledge to the test! 12 stands from which visitors will be able to participate individually.

*INCIBE Area*

### Language Technologies Hackathon

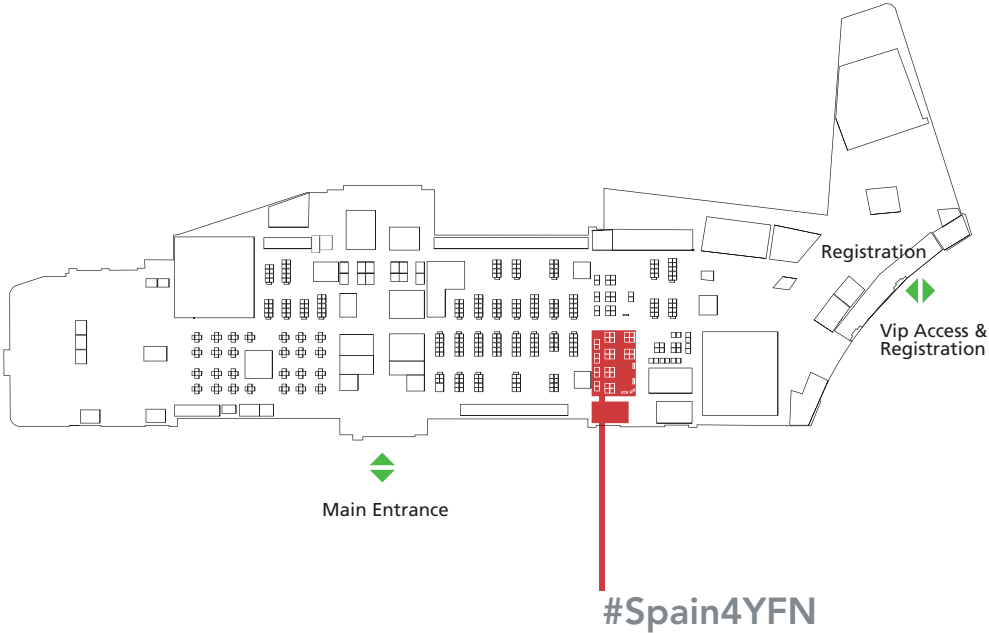

Final phase presentations and award giving ceremony of the II Language Technologies Hackathon.

*II LT Hackathon Area*

[info@bhubplay.com](mailto:info@bhubplay.com)

@bhubplay

[linkedin.com/company/b-play-global-content](https://www.linkedin.com/company/b-play-global-content).

***Boosting business with digital content rewards.***

We create digital content platforms for brands. B!Play is the first brandable, multi-device platform that enables all types of digital content to be redeemed as incentives. Beyond just being a technology solution, B!play's value proposition includes the negotiation of content agreements and integral campaign design and management. It is a totally scalable cloud service with the most relevant functionalities for decision-making in global sales/marketing strategies. Our business model is tried and tested by top global partners, including VIACOM International Media Networks, Sony Pictures, 20th Century Fox, Xbox and Bloomberg.

## CARDIONLIVE

Stand R2.27

**www.cardionlive.com**  
asurroca@cardionlive.com  
@Cardionlive  
www.linkedin.com/company/cardionlive

***Connects with life.***

Internet of things could save lives? Cardionlive offers the first electronic solution to remotely and in real time control the status of defibrillators and generate automatic calls and warnings in case of any incident through an automatic call system to 112, or whoever is designated, which allows early warning to emergency services and act quickly and effectively. It is equipped with a real-time tracking system for locating equipment. We have created the first mobile application that allows you to consult a map with the location of the defibrillators and the first mobile application of cardiac rescuers (Cardiofollowers) automatically connected to defibrillators.

## CARTO

Stand R2.21

**www.carto.com**  
sales@carto.com  
@carto  
linkedin.com/company/carto.

***Unlock the potential of your location data***

CARTO is the platform for turning location data into business outcomes. CARTO's open cloud platform offers visual insights on where things happen, why they happen, and predict what will happen in the future. We accelerate innovation, find efficiencies, power new use cases, and disrupt business models through the use of Location Intelligence.

**CHANGEit**

## CHANGEit

Stand R2.24

**www.paynospain.com**  
info@paynospain.com  
@paynospain  
linkedin.com/company/paynospain.

***Mobile wallet p2p payments, mobile payments NFC/QR, change it to easy way.***

ELECTRONIC WALLET Our tool consolidates, in a unique solution, an entire promotional strategy, loyalty, payments and information and converts smartphones and tablets into POS terminals. PAYMENT GATEWAY We offer PCI services that allow us to mediate in the process of physical and online payments, connecting with buyers worldwide and offering agile and intuitive solutions for users.

**www.checkealos.com**

rocio.salinero@checkealos.com

@Checkealos

linkedin.com/company/checkealos-com.

***User experience intelligence.***

Checkealos makes it easy to eliminate bad, costly experiences and increase ROI by getting real customer insights for websites and mobile apps. It is the online platform that provides practical customer behaviour insights to create engaging digital user experiences. Focused for the lean, omni-channel, data driven and go-getter mindsets to remove conversion roadblocks, increase engagement and boost sales.

**DRAINWARE**

Stand R2.11

**www.drainware.com**

jose.palanco@drainware.com

@drainware
